	文件复制来源 (C):	
	C:\Program Files\PLAB ElectroChemistry S 💌	浏光 B

Step 3, uECS driver installation

When uECS is plug in a USB port for the first time, the following window will appear, select "Automatic installation driver"(the first option), then press "Next" (Red circled button)

Wait

Press "Yes" (Red circled button)

Press "Finish" (Red circled button)

Step 4, Checking driver installation

Right click "My computer", select "Manage"(high-lighted menu item).

Click "Device manage" in left side.

Browse "Jungo" folder by pressing "+" button

If both "USB2.0 ElectroChemistry System uECS 2010" and "WinDriver" appears without exclamation marks, it means the driver installed successfully.

Step 5, Checking and updating License

Start ECS program, a splash window including license information will appear for a few seconds. It can also be open by clicking "Help-About" menu item:

The first line of license information is the device type of current license code. The second line is the serial number of your current license code and the serial number of the attached device. The 3^{rd} line shows the date when your license expires.

If the current license code is expired, you should get a new code from the provider, then update license code by pressing "Help-UpdataLicense" menu item:

Input new license code in this dialogue and press OK:

Update License	×
Enter License Code:	

ОК	Cancel

After updating license code, restart ECS program and check the license information in the splash window.
